

Quality and Environmental Policy

RR Donnelley Prague s.r.o.

We are committed to:

- Producing and supplying Products and Services in the field of digital print, label solutions, and supply chain management, which meet or exceed our customer's requirements.
- Continually improving our business processes and our integrated quality and environmental management systems implemented in accordance to the requirements of ISO standards 9001 and 14001, principles of current Good Manufacturing Practice (cGMP), as well as RR Donnelley's global EHS and sustainability standards.
- Maintaining full compliance with applicable statutory EHS, legal, and other business regulation requirements.
- Ensuring a safe, respectful, and learning work environment for all our employees based on team-work and effective communication.
- Applying a preventative approach during production planning, sourcing, and contracted services, to decrease the total amount of production waste, energy and material consumption, while diligently maximizing our recycling levels.
